Department of Science and Humanities**Proposal for Induction Programme**

Universal Human Values are an integral part of life along with life skills in all walks of life. To cater to the needs of students who are making a transition from school education to college education, an orientation programme on Universal Human Values and life skills is highly recommended. This in turn prepares the students to be receptive to the technical and general educational information which will be instilled by the teaching professionals. By introducing life skills to the students, moral values can be given in terms of attitude and ethics. To address this issue, a programme proposal for Universal Human Values and Life skills is devised.
