## **Program Report for a Seminar on “Top Emerging Trends in Composites”**

This Session Speaker inculcates various tradition patterns about Recent Trends and innovation; students segregated more knowledge and grabbed ideas of predictive measures for problem solving applications. Speaker interacted a valuable key notes for pertaining recent technology facts.

- a. High Performace Resins & Adhesives
- b. Carbon Fiber-based Materials
- c. Lightweighting
- d. Advanced Polymer Composites
- e. Biomaterials
- f. Nanocomposites
- g. Smart Metal Composites
- h. Additive Manufacturing
- i. Circular Materials Economy
- j. Intelligent Design & Manufacturing.

Students and faculties utilized the session by listening speakers information persistingly in a good manner
