## **Program Report for Seminar on “Research Analysis & Modelling Software for Engineering Design”**

A technical seminar was conducted by Department of Mechanical Engineering on the topic Research Analysis & Modelling Software for Engineering Design at Krishnasamy College of Engineering and Technology, Cuddalore. The seminar was inaugurated by our beloved Chairman Dr. K. Rajendran, Mr. N. Vijayakumar, Secretary, Krishnasamy Group of Educational Institution, The felicitation address was given by our Principal Dr. G. Elango, and Vice Principal Dr. K. Raghu. Finally the expert has started the technical session. The expert given a technical session on analysis software for engineering design which describes analysis model is a technical representation of the system. It acts as a link between the system description and the design model. In analysis modelling, information, behaviour, and functions of the system are defined and translated into the architecture, component, and interface level design in the design modelling. The process of analysis modelling helps in the understanding and extraction of user needs for the software system. Analysis models assist in resolving requirements disputes and providing clarification on unclear areas. Analysis modelling aids in the definition of the system’s dynamic behaviour, including workflows, processes, and inter-component interactions. It is made easier by analysis modelling, which helps in defining the parameters of the software system and its interactions with users, other systems, and hardware components. Analysis modelling divides various system components or concerns into discrete representations. For instance, behavioural modelling aims to capture the dynamic behaviour of the system, whereas data modelling concentrates on expressing the relationships and structure of data items. The total number of students was participated in this technical seminar around 45

## **Program Report for Workshop on “Innovation Testing & Fault Finding in Electrical & Electronic Devices”**

Workshop on “Innovation Testing & Fault Finding Electrical & Electronic Devices” held on 03.06.2023, (CSE & ECE second Year Students). A Workshop was conducted by the Department of Science and Humanities entitled “Innovation Testing & Fault Finding Electrical & Electronic Devices” on 03.06.2023 at Krishnasamy College of Engineering and Technology, Cuddalore. The felicitation address was given by respected Secretary Mr.N.Vijayakumar, Principal Dr. G. Elango, and Vice Principal Dr. K. Raghu. Dr.B.Sivaraman, HOD/S&H welcomed the gathering. The Chief guests Er.V.Raja demonstrated about the testing and finding fault in Electrical and electronics devices. A practical session was also conducted in the afternoon session. Around 120 students was participated in this technical seminar and benefitted

**WORKSHOP**

**ON**

**Innovation Testing & Fault Finding in Electrical Electronic Devices**

on Friday and Saturday, the 02<sup>nd</sup> and 03<sup>rd</sup> June, 2023 at 10.15 a.m.  
at **Sivaramakrishnan Memorial Auditorium**  
in the college campus.

**Er. V. Raja**, Principal  
Raja Electronics Institute, Cuddalore  
*has kindly consented to deliver the special address.*

**Dr.P.Manikandan**  
Coordinator / Prof -Physacs

**Dr.B.Sivaraman**  
HOD / S&H

**Prof. Dr.G.Elango**  
Principal

**Invitation for the workshop on 02.06.2023**

## **Programme Report for Workshop on “Innovation Testing & Fault Finding in Electrical & Electronic Devices”**

Workshop on “Innovation Testing & Fault Finding Electrical & Electronic Devices” held on 02.06.2023, (MECH & EEE second Year Students). A Workshop was conducted by the Department of Science and Humanities entitled “Innovation Testing & Fault Finding Electrical & Electronic Devices” at Krishnasamy College of Engineering and Technology, Cuddalore on 02.06.2023 The felicitation address was given by respected Secretary Mr.N.Vijayakumar, Principal Dr. G. Elango, and Vice Principal Dr. K. Raghu. Dr.B.Sivaraman, HOD/S&H welcomed the gathering. The expert Er.V.Raja demonstrated about the testing and finding fault in Electrical and electronics devices. A practical session was also conducted in the afternoon session. Around 90 students was participated in this technical seminar and benefitted

## **Programme Report for National Level Technical Symposium “EBULLIENTZ 2K”**

National level Technical Symposium” EBULLIENTZ 2K-23” was organized by the Department of Electronics and Communication Engineering was an amalgamation of technical presentation and interesting events held on 04.05.2023. The stage was shared by most respected by respected, Principal Dr. G. Elango, Vice Principal Dr. K. Raghu and Administrative Officer Mr.G.Balakrishnan. Chief guest Er.G.Sadiqbasha,ME, Asso, Proffesor and Head of ECE, V.R.S .College of Engineering & Technology gave the keynote address. The inaugural function was followed by the paper presentations and various events. Around 36 paper presentations were made across 6 institutions. At the end certificates were distributed to the participants and winners were awarded with cash prizes and shields. The program was coordinated by Er. S.R. Karthiga, AP/ ECE and Er. M.Devanathan, AP/ ECE

### 5. Intra Departmental Paper Presentation conducted by Department of Mechanical Engineering held on 27.04.2023 at KCET.

#### Department of Mechanical Engineering

#### Circular

It is proposed to conduct an **intra departmental paper presentation** on behalf of the department of mechanical engineering on 27.04.2023 at 10 a.m. Participation is invited from interested students of various departments to participate and present their paper in anyone of the following titles:

- 1.Applications of IOT in engineering disciplines.
- 2.3D printing
- 3.5G for technological prosperity
- 4.Robotics
- 5.Applications of embedded system technology-based applications.
- 6.Smart concrete

The last date for submission of paper to the department of mechanical engineering for evaluation / scrutiny is 3pm of 24.04.2023.

#### **Note:**

No registration fee. The length of the paper should not exceed 6 pages (Paper size: A4 Font: Times New Roman, sized 12, 1.5 line spacing). A maximum of two authors per paper is allowed.

### Programme Report for Intra Departmental Paper Presentation

Department of Mechanical Engineering of KCET conducted an Intradepartmental Paper presentation on 27/4/2023. The inauguration was conducted in A- Block seminar hall at 10.00am. Departmental paper presentation was held at various venues. For each department subject expert and a language teacher was assigned as judges. 10 participants from each department participated in the event. Finally winners were selected and given prizes.

## **Program Report for a Seminar on “Top Emerging Trends in Composites”**

This Session Speaker inculcates various tradition patterns about Recent Trends and innovation; students segregated more knowledge and grabbed ideas of predictive measures for problem solving applications. Speaker interacted a valuable key notes for pertaining recent technology facts.

- a. High Performace Resins & Adhesives
- b. Carbon Fiber-based Materials
- c. Lightweighting
- d. Advanced Polymer Composites
- e. Biomaterials
- f. Nanocomposites
- g. Smart Metal Composites
- h. Additive Manufacturing
- i. Circular Materials Economy
- j. Intelligent Design & Manufacturing.

Students and faculties utilized the session by listening speakers information persistingly in a good manner

#### Seminar Feedback Form

Event Name: Journal preparation Publication  
 Event Venue: C Block Seminar hall date 25/03/2023

1. How useful did you think this event was for you?  
 (Please circle the appropriate number where 1 = not at all useful and 5 = extremely useful)

1 2 3 4 5

2. Do you think this seminar was appropriate?  
 Yes  No

3. Did you receive all the information you required at this Venue?  
 Yes  No

#### PLEASE COMMENT OVERLEAF

4. If you attended an appropriate one of the questions and answer sessions do you agree that the Tutor / Lecturer / Instructor provided the information asked for in these sessions?

(Please circle the appropriate number 1 = disagree and 5 = completely agree)

1 2 3 4 5

5. How would you rate this seminar attended?  
 (Please circle the appropriate number where 1 = not at all useful and 5 = extremely useful)

1 2 3 4 5

PLEASE SUPPLY BRIEF INFO ON THIS AND COMMENT OVERLEAF

6. Would you like to attend any further Conference / Training / Courses?  
 Yes  No

## **Programme Report for a Seminar entitled on “High Voltage Engineering & its Research Awareness”**

High voltage engineering is a specialized field of electrical engineering that deals with the study and application of electrical systems operating at voltages above the standard levels. While there's no strict definition of "high voltage," it typically refers to voltages above 1000 volts. Here are some key aspects and applications of high voltage engineering:

### 1. Generation and Transmission:

High voltage is crucial for efficient power transmission over long distances. Power generation plants produce electricity at medium voltage, which is then stepped up to high voltage for transmission through power lines to substations and eventually to consumers

### 2. Insulation

High voltage systems require special insulation to prevent leakage currents and breakdown. Materials like oil, gas (such as sulfur hexafluoride), and solid insulators are used to insulate components like transformers, cables, and switches.

### 3. Equipment Design and Testing:

Designing equipment that can handle high voltages safely and efficiently is a primary concern in high voltage engineering. This includes transformers, circuit breakers, switches, and insulators. These components undergo rigorous testing to ensure they can withstand high voltage stresses.

### 4. Safety

Safety is paramount in high voltage systems due to the potential hazards associated with high voltages. Proper safety measures, including grounding, shielding, and warning signs, are essential in high voltage installations.

### 5. High Voltage Direct Current (HVDC) Transmission

HVDC transmission is becoming increasingly important for long-distance power transmission due to its lower losses compared to AC transmission at high voltages. High voltage

engineering plays a significant role in the design and operation of HVDC systems. 6. Environmental Impact High voltage systems, especially transmission lines, can have environmental impacts. High voltage engineering may involve mitigating these impacts through better design and routing of transmission lines. Overall, high voltage engineering is a multidisciplinary field that encompasses aspects of electrical engineering, physics, materials science, and safety engineering to ensure the efficient and safe operation of electrical system

## **Programme Report for an Awareness Programme on “Tamil Nadu Student Innovators” Centre for Innovation and Entrepreneurship (CIE)**

Tamil Nadu Student Innovators Centre for Innovation and Entrepreneurship (CIE) of KCET conducted an innovation program on “Tamil Nadu Student Innovators” Coordinators Ms.C.Reikha Asso Professor & Head/CSE and Dr.P.Namamalvar organized this event. Students from various Departments participated. Cheif Guest delivered lot of supportive and valuable points which would be helpful for student innovators to facilitate a wonder in near future. Key points discussed in this session by the speaker is to develop a vibrant, sustainable ecosystem to promote innovation, nurture start-ups and incubation by integrating various professional domains for socially relevant ventures and to make a positive impact on society.

## **Programme Report for “Innovations, Challenges and Future Implications of Artificial Intelligence Technology”**

Krishnasamy College of Engineering and Technology (Our institution) organized a technical seminar on “Artificial Intelligence Technology” on February 13, 2023. The seminar focused on giving a persuasion about involvement of AI technology in software and hardware-based industry. The programme started at 10.00 am. A Chief guest Mrs. A.T. Thendral, AP/ECE from Manakula Vinayagar Engineering college was coming to teach about AI Technology to students. Students actively participated in technical seminar and made a healthy conversation with the chief guest. Finally, feedbacks from the students are collected.

## **Programme Report for a Knowledge sharing session on “Cloud Computing Technologies & its impact”**

Department of Computer Applications of KCET conducted a Technical Seminar on “Cloud Computing Technologies and its impact” on 10-02-2023 in C- Block seminar hall in our college premises at 10.00 am. The Chief guest Mr.M.Arunachalam, MCA, Developer ,CRESCON Projects and Services Pvt.Ltd, Chennai delivered the keynote address and shared and interacted his views and ideas on Cloud Computing Technologies and its impact. 58 students and few faculty members participated and got benefitted.

## Programme Report for Research webinar on “IoT Design Methodologies”

Speaker Dr.C.Yaashuwanth Associate Professor/SVCE , innovated deliverable points on 19<sup>th</sup> November 2022 in his session to our students and staff for Designing IoT systems can be a complex and challenging task as these systems involve interactions between various components. A wide range of choices are available for each component IoT designers often tend to design the system keeping specific products in mind.

Session Key notes discussed by speaker mainly on Data collection requirements

- a. Data analysis requirements
- b. System management requirements
- c. Security requirements
- d. User interface requirements. Increased productivity and task automation
- e. Improved information accessibility and convenience.
- f. Improved system and device monitoring and control.
- g. Increased capacity for data collection and analysis
- h. Enhanced ability to make decisions.
- i. Savings on costs.

Above key points were discussed by speaker and it will be more useful for our students Application based projects and scenarios. Final Year students and Research scholar were participated in this session and grace the session occasion successfully.

Inaugural & Interaction Session held on 30.09.2022

Technical Symposium on RTDC'22 2022

**Automatic License Plate Recognition**  
M.Praveen<sup>1</sup> and S.Praveen<sup>Ref</sup>  
Department of Information Technology,  
IFET College of Engineering

**ABSTRACT**  
Automatic license plate recognition (ALPR) is the extraction of vehicle license plate information from an image or a sequence of images. The extracted information can be used with or without a database in many applications, such as electronic payment systems (toll payment, parking fee payment), and freeway and arterial monitoring systems for traffic surveillance. The ALPR uses either a color, black and white, or infrared camera to take images. The quality of the acquired image is a major factor in the success of the ALPR. Different environmental conditions such as indoors, outdoors, day or night time. The license plates can be partially occluded by dirt, lighting, and viewing angle on the car. In this paper, we present a comprehensive review of the state-of-the-art techniques for ALPR. We categorize different ALPR techniques according to the features they used for each stage, and compare them in terms of cost, recognition accuracy, and processing speed. Future forecasts of ALPR are given at the end.

**SMART FARMING USING IOT**  
K.senthil<sup>1</sup> and V.sathish<sup>1</sup>  
Department of Computer Science,  
IFET College of Engineering

**ABSTRACT**  
IoT is a short for internet of things. IoT has many applications in agriculture, smart cities, smart home etc. This paper is mainly focusing on agriculture, as it plays a vital role in development of our country's economy. The new developments of Smart Farming with use of IoT, by day turning the face of conventional agriculture methods by not only making it optimal but also making it cost efficient for farmers and reducing crop wastage.

**DEVELOPING A GUI FOR CIPHER TEXT ALGORITHMS USING STEGANOGRAPHY**  
B.Vidya<sup>1</sup> and A.Senthil<sup>1</sup>  
Department of Computer Science,  
IFET College of Engineering

**ABSTRACT**  
Cipher text is encrypted text transformed from plaintext using an encryption algorithm. The message hidden inside a image and being transferred to the desired place. The message is decrypted with a password. The message can be decrypted by cracking the password by using the set of decrypting rules. The hidden message will be conveyed to the destination. Cipher text can't be read until it has been converted into plaintext (decrypted) with a key. The decryption cipher is an algorithm that transform the cipher text back into plaintext. With the internet having reached a level that merge with our lives, growing exponentially during the last several decades, data security has become a main concern for anyone connected to the web. Data security ensures that our data is only accessible by the intended receiver and prevents any modification or alteration of data.

## **Programme Report for Seminar on “Research Strategies and its impacts of Student IEEE Chapter”**

This Session speaker revitalize gave an good suggestions to operate inactive student branch councillor for sorting issues. To capitalise an good environment in our institution and mobilises the operational features and constraints in a distinct way. Speaker Dr.M.Devanathan focussed key factor points to strengthen a IEEE Chapter by pertaining mobilized era. Speaker gave an valid points to initiate the envelope such as

- a. Get the resources and opportunities you need to keep on top of changes in technology
- b. Get involved in standards development
- c. Network with other professionals in your local area or within a specific technical interest
- d. Arementored by professional engineers and technologists
- e. Obtain access to the largest library of electrical engineering, computer science, and electronics technical literature as well as the latest technology trends, industry news, and events.
- f. Collaborate with IEEE colleagues and member groups, online or in person, to build a support group for your profession, industry, or project. Students and Faculties were interacted and participated this event and grace the occasions in rhythmic ways.
